BTP PROTECTION AGENT CERTIFICATION COURSE

Registered UN Supplier
UNGM No: 126537

Course Description

The ISA Academy's BTP Protection Agent Training Program is designed to ensure that the basic knowledge and skills are developed, that will enable each operative to effectively discharge their complex responsibilities, corresponding to the standards of international Diplomatic Security Services. The "BTP Course" provides an intensive instruction for attendees at the ISA Academy®. We are looking for people with the right attitude.

Our chief instructor, having more than 30 years of personal hands-on experience in executive security, is RSDF trained and served as commissioned officer at several elite regiments. After a career in the army, with honorable discharge, (including five tours of duty at the Royal Castle in Sweden, as chief of the quick response unit), he has spent the past years as operational EC at International Security Agency. During this time, he have participated in multiple CP, Surveillance and Counter Terrorism Programs around the world.

Our training facilities are administrated by the ISA Academy®. The "BTP Course" was originally designed for International Security Agency trainees only, but to the great demand we decided to open the academy to the public in 1995.

As you can see from our course description, we offer one of the most comprehensive Close Protection Training Courses open to the public today. Our small class size ensures individual attention from instructors so that you can achieve outstanding training results in a reasonable time frame spent on site.

Your training will be spent practicing and studying a wide variety of tactical, protective and security related topics. The ISA Academy® curriculum also includes intensive training in defensive tactics, practical exercises and the use of firearms. Several tests will be administrated in all areas to monitor the progress of each attendee.

The ISA Academy's "BTP Course" is recognized as one of the finest and most respected close protection training courses in the world today, and is often attended by police officers, law enforcement, close protection and security personnel from all over the world.

ISA Academy® also offers "Contract Training Programs" (CTP), for government, UN, larger corporate and organizational customers. These tailor-made training courses are uniquely designed for each customer and their specific work environment. "CTP courses" are arranged by appointment only, all year around.

No matter what your reasons may be for attending one of our courses, or what previous experience you may have, you will receive one of the most authentic and up to date Close Protection Training Programs available on the market today.

Regionally Scheduled BTP Course Dates

All BTP Protection Agent Training Programs offered worldwide are inclusive of all related training equipment. Annually scheduled BTP course dates for your region are listed on the application form, found at page 5 in this brochure.

AGENDA

The BTP Protection Agent Training Program is divided into two separate sections. The first part of the training includes the theory. The second part of the BTP Course includes the hands on practical training.

The attendees will be requested to complete the theory part, which is 20 days, from their home location. Thereafter all attendees will fulfill their remaining 10 intense days with practical training on location at the ISA Academy®.

Background

Both male and female applicants are welcome to join the BTP Protection Agent Training Program at the ISA Academy®. Applicants must however be of legal age, in good health and have a sufficient ability to speak, read and communicate in English.

Prior experience in the field of close protection or security is recommended yet not required. Applicants should, however, be aware of the BTP Protection Agent Training Program is demanding both mentally and physically.

Applicants with conviction of a criminal offence or the use of illegal drugs will not be accepted to the academy.

Goals

The BTP Protection Agent Training Program is intended to fully qualify operatives for armed and unarmed close protection assignments in such countries where it is applicable.

Attendees are evaluated from their practical and theoretical skills during the BTP Protection Agent Training Program. Attendees will also have to pass a written examination at the final day of the course.

Attendees achieving B/4 level or above, will be able to work at the highest levels of security in the field of close protection.

Enrolment

Available BTP training dates for your region are listed on the application form at page 5 of this brochure. The dates listed, refer to the starting date of the practical section of the training in your area. The payment plan for attendance on the BTP Protection Agent Training Program is outlined at page 4, under "TUITION", in this brochure.

Applicants to the BTP Protection Agent Training Program should use the online enrollment form (isaacademy.com/enrollment/). Completed application forms should be submitted to ISA Academy®.

CERTIFICATE

Upon completion and thorough evaluation of academy training, successful attendees will graduate and receive the credentials of an ISA Close Protection Officer, signed and verified by the International Security Agency.

TUITION

The tuition of the BTP Protection Agent Training is accessible on the online enrollment form. A deposit of 10% will be requested upon confirmation of the applicant. The remaining amount is due for payment by the attendee no later than at the first day of attendance.

The training manual and additional documentation is sent to the attendee immediately upon receipt of the deposit.

Most of the tuition is spent back on the attendee in form of equipment, ammunition, literature, and other operational expenses.

Simple shared accommodations are offered at no additional charge throughout the training. Attendees requiring private rooms, may individually book accommodations outside the included package.
